

## Assignment 4

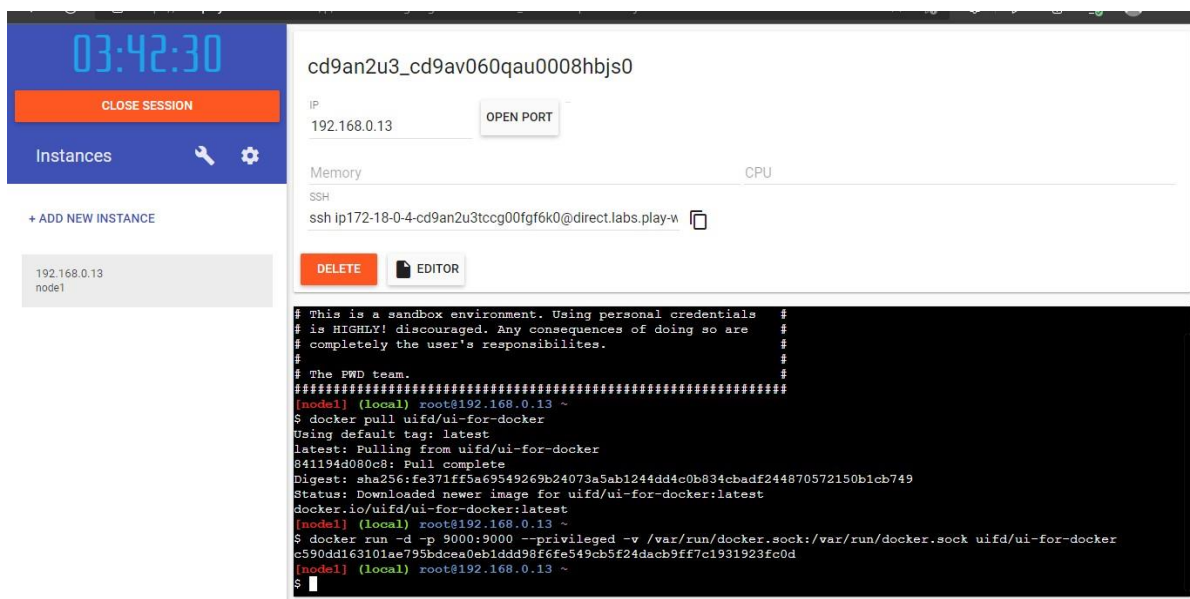

### Docker and Kubernetes

Assignment Date	21 October 2022
Student Name	Dinesh V
Student Roll Number	511319205005
Maximum Marks	2 Marks

### 1. Pull an image from docker hub and run it in docker Playground

The screenshot shows the Docker Hub repository page for `uifd/ui-for-docker`. The page includes the repository name, a star icon, and a note that the repository is deprecated and development continues at `portainer/portainer`. It also displays the Docker Pull Command: `docker pull uifd/ui-for-docker`. The page is viewed in a browser window with the address bar showing `hub.docker.com/r/uifd/ui-for-docker`.

The screenshot shows the Docker Playground interface. On the left, there is a sidebar with a clock showing 03:42:30, a 'CLOSE SESSION' button, and a list of instances. The main area displays the details of a container named `cd9an2u3_cd9av060qau0008hbjso`. The container's IP is `192.168.0.13`. The terminal window shows the following commands and output:

```
# This is a sandbox environment. Using personal credentials
# is HIGHLY! discouraged. Any consequences of doing so are
# completely the user's responsibilities.
#
# The FWD team.

## Aboutus

### Mission

SMARTBRIDGE is an edTech organization with a vision to bridge the gap between academia & industry. Our outcome-based experiential learning programs on emerging technologies (Internet of Things, Machine Learning, Data Science, Artificial Intelligence, Robotics) are building skilled entry-level engineers, for the corporate world. .

### Vission

Our main objective is to bridge the existing gaps between prevailing industry standards and what the academics offer to the graduates while passing out of university. SmartBridge offers suitable skill deployment and training to the young talent before on boarding their first job. Our skill development programs are designed considering the present expectations in the industry.

### Objective

Well directed career guidance programs for educational institutions  
Appropriate certification courses that suit the industry need  
Train the trainers; expanded awareness about the current industry standards  
Liaise with corporates to offer niche internships  
Establish technology development centers in colleges  
Specialised incubation centers in collaboration with corporates
