

Assignment -4

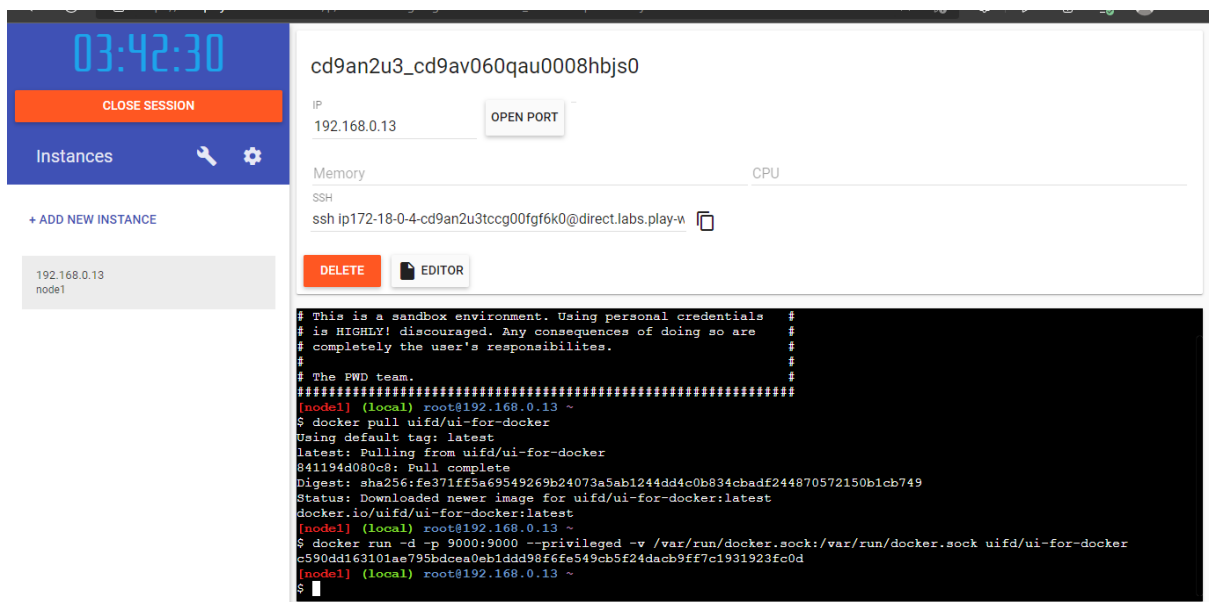

Docker and Kubernetes

Assignment Date	21 October 2022
Student Name	Jayakamalesh k
Student Roll Number	511319205009
Maximum Marks	2 Marks

1. Pull an image from docker hub and run it in docker Playground

The screenshot shows the Docker Hub page for the repository `uifd/ui-for-docker`. The page indicates that the repository is deprecated and development continues at `portainer/portainer`. It shows the repository was updated 6 years ago and has over 10 million pulls. The Docker Pull Command is displayed as `docker pull uifd/ui-for-docker`. The page also includes a description of the repository as a web interface for the Docker Remote API.

The screenshot shows the Docker Playground interface. On the left, there is a sidebar with a clock showing 03:42:30, a 'CLOSE SESSION' button, and an 'Instances' section with a list of instances. The main area displays the details of a selected instance with IP `192.168.0.13` and an 'OPEN PORT' button. Below this, there is a terminal window showing the command `docker pull uifd/ui-for-docker` being executed, along with the output showing the image being pulled from Docker Hub.

Aboutus

Mission

SMARTBRIDGE is an edTech organization with a vision to bridge the gap between academia & industry. Our outcome-based experiential learning programs on emerging technologies (Internet of Things, Machine Learning, Data Science, Artificial Intelligence, Robotics) are building skilled entry - level engineers, for the corporate world. .

Vission

Our main objective is to bridge the existing gaps between prevailing industry standards and what the academics offer to the graduates while passing out of university. SmartBridge offers suitable skill deployment and training to the young talent before on boarding their first job. Our skill development programs are designed considering the present expectations in the industry.

Objective

Well directed career guidance programs for educational institutions
Appropriate certification courses that suit the industry need
Train the trainers; expanded awareness about the current industry standards
Liaise with corporates to offer niche internships
Establish technology development centers in colleges
Specialised incubation centers in collaboration with corporates
