Docker Playground:

The screenshot shows the Docker Playground web interface. On the left, there's a sidebar with a timer at 03:42:54, a 'CLOSE SESSION' button, and a list of instances. One instance, '192.168.0.13 node1', is listed. The main area displays details for the selected instance: IP 192.168.0.13, Memory 32.72% (1.278GiB / 3.906GiB), CPU 0.10%, and an SSH command: `ssh ip172-18-0-22-cds69fu3tccg008dq1u0@direct.labs.play`. Below this is a terminal window showing a Node.js application running on http://172.17.0.2:5000/. The terminal output includes a warning about using a production WSGI server and a list of HTTP requests and responses.

IBM Cloud Registry:

The screenshot shows the IBM Cloud Registry web interface. The left sidebar has a 'Container Registry' section with options for 'Namespaces' (3), 'Repositories' (2), 'Images' (2), 'Trash' (0), and 'Settings'. The main area is titled 'Namespaces' and shows a list of namespaces. A filter is applied to show only the namespace 'smartfashionrec'. The table below shows the details of the namespaces.

Name	Resource group	Repository count	Image count	Retention policy
smartfashionrec	8459bc1dec4f4c8887bdd13a8a18b512	1	1	Retain all images
